## The Construction of the 6 Avenue Extension will begin in June

Posted on May: 6 2025

An aerial drawing provided by Sedulous Engineering Inc. of the 6 Ave Connection

The Town of Drumheller is moving forward with the 6 Avenue Road Connector, a key infrastructure project that will improve access to the downtown core for vehicles, pedestrians, and active transportation users.

On April 7, 2025, Drumheller Town Council approved the project, which will connect Highway 56/South Dinosaur Trail at the 6 Avenue Southeast intersection to 2 Street East. Construction is expected to begin in June and continue throughout the summer.

The \$1.68 million project, approved in the 2025 municipal budget, was awarded to East Butte Contracting. Sedulous Engineering Inc. will serve as Construction Administrator, ensuring the project stays on track and meets all specifications. The connector will integrate the Rails to Trails network, landscaping enhancements, and future-ready infrastructure, including water mains and sanitary sewer lines. The road will also improve access to Railway Avenue East and Highway 56.

"This road has been discussed many times over the years," said Councillor Crystal Sereda. "We are very excited to see this finally come to fruition and continue to work toward the long-term vision of a more accessible and connected downtown."

The 6 Avenue Road Connector aligns with the Town's Downtown Area Revitalization Plan (DARP), established in 2021, which envisions a vibrant and inclusive downtown environment that is accessible to residents, visitors, and businesses alike. This connection supports that vision by improving both vehicle and pedestrian routes while creating opportunities for future growth. The adjacent land has already drawn interest from developers, and this project helps lay the groundwork for future development in the area.

To accommodate construction, the recycling station currently located on Railway Avenue East and managed by the Drumheller and District Landfill will be relocated to 1 Street East and 7 Avenue Southeast effective May 9. All approved recycling services will continue to be available at the new location.
